

Clime Capital Management Pte., Ltd.

Southeast Asia Clean Energy Facility, LP (SEACEF)

Overview

Private equity fund that invests in early-stage clean energy projects through development financing, ultimately to de-risk businesses and projects to catalyze future private investments.

Impact Thesis

Support the energy transition out of coal in Southeast Asia by deploying capital in solar, wind storage, energy efficiency, electric mobility, and infrastructure.

Impact in Practice

In 2024, Mober, (<https://www.moberdelivery.com/>) the Philippines' pioneer in green logistics, expanded its electric vehicle fleet to 110 units, reducing over 1,500 tons of CO2 annually. Through partnerships with IKEA and Nestle, and support from Clime Capital and ADI, Mober integrated advanced ESG systems and real-time CO2 tracking. This innovation not only enhanced operational efficiency but also set a new standard for sustainable logistics in Southeast Asia, demonstrating how early catalytic investments from Climate can crowd in commercial capital to accelerate decarbonization and innovation in logistics.

Key Updates

- Clime Capital, across its two funds, backed Xurya to accelerate Indonesia's energy transition. The new capital will enable Xurya to scale operations across Indonesia, avoid an estimated 370,000 tons of CO2 annually, and create over 1,600 green jobs.
- Clime Capital accelerates StrideSolar, a cleantech innovator providing rooftop solar and battery storage solutions, supporting clean energy expansion in Vietnam and unlocking additional debt financing.
